

AUTUMN PHOTOGRAPHY WORKSHOP Saturday November 12th 2011

“Photographing Nature & Landscape”

- Location: Lukesland Gardens near Ivybridge, South Devon
- £75.00 per person
- Access to all of Lukesland Gardens for the day
- Includes simple buffet lunch, refreshments and certificate
- 9.30am to 4pm

Morning: Close Nature

The morning workshop explores ways of composing and framing creative images of natural features and scenes such as flowers, plants and water.

We will also cover light, colour, detail and texture in a relaxed and practical way and explore the importance of background.

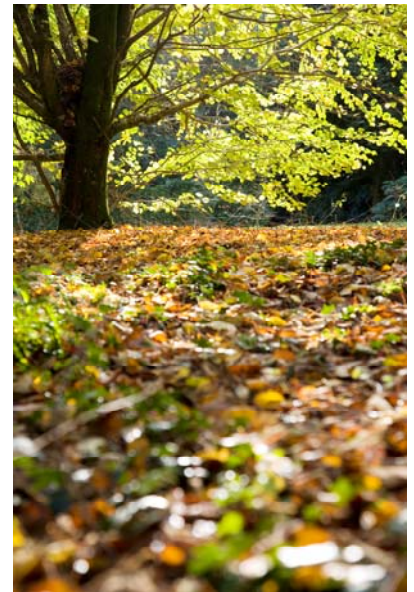

Afternoon: Wider Landscape

The afternoon workshop will help you to improve your landscape photography and scenic photographs.

We will experiment with how to compose a photograph, how different light sources can affect an image and the challenge of contrast.

Both workshops are Suitable for all digital camera users at any technical level from beginner to advanced as we work on mostly creative rather than technical aspects on these workshops.

Any digital camera from camera phone to SLR are suitable!

Held in the wonderful Lukesland Gardens with 24 acres of space!

The beautiful setting nestles in a small valley with a brook cascading from its source on Dartmoor through ponds and over waterfalls. The teaching is in the charming Old Billiard Room with log fire.

There will be the opportunity to experiment with many photographic opportunities outdoors or inside at this delightful location. We will then discuss the resulting images, learning from each other's experiences.
